GEOCACHING

Geocaching is a real-world, outdoor adventure that is happening all the time, all around the world.

To play, participants use the **Geocaching app** and/or a smart phone (or a GPS device) to navigate to cleverly hidden containers called **geocaches**. There are millions of geocaches in 190 countries waiting to be discovered.

What is a CACHE?

Generally speaking a cache is a CONTAINER, but in Geocaching this container can take numberless of shapes and sizes.

No matter the size and shape, a cache should contain a LOOGBOOK, that is a piece of paper that players must sign in order to register their finding.

A cache might also include **small items** you can take provided you leave something of equal or greater value in its place.

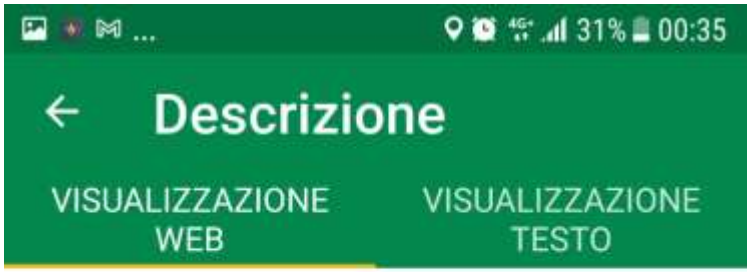
This cache is a magnetic micro container. **Tweezers are required to extract log.Don't forget to bring your own pen ;)**

Stealth is required.Be aware of the many people passing this busy spot, & replace the cache exactly as you found it, ensuring it is not visible.

Please note a valid log here requires a signature on the cache log.

You do not need to enter the church to find the cache; however, it is well worth a visit. Enjoy!



Valentine's Day or Saint Valentine's Day is a holiday celebrated on February 14 by many people throughout the world. It is the traditional day on which lovers express their love for each other by sending Valentine's cards, presenting flowers, or offering confectionery.

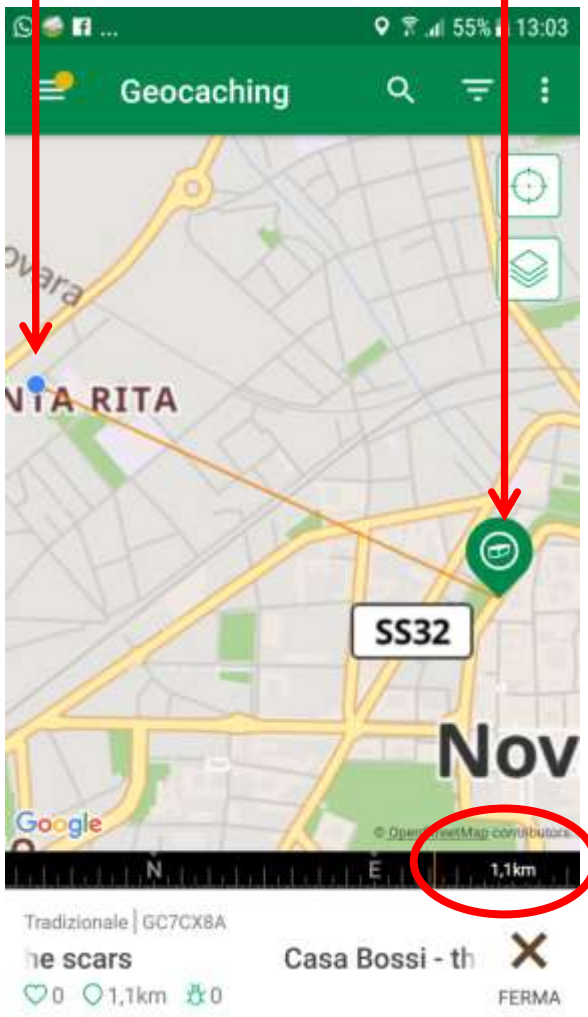
6. Start searching for the cache:

where you are

your destination



You can use the compass

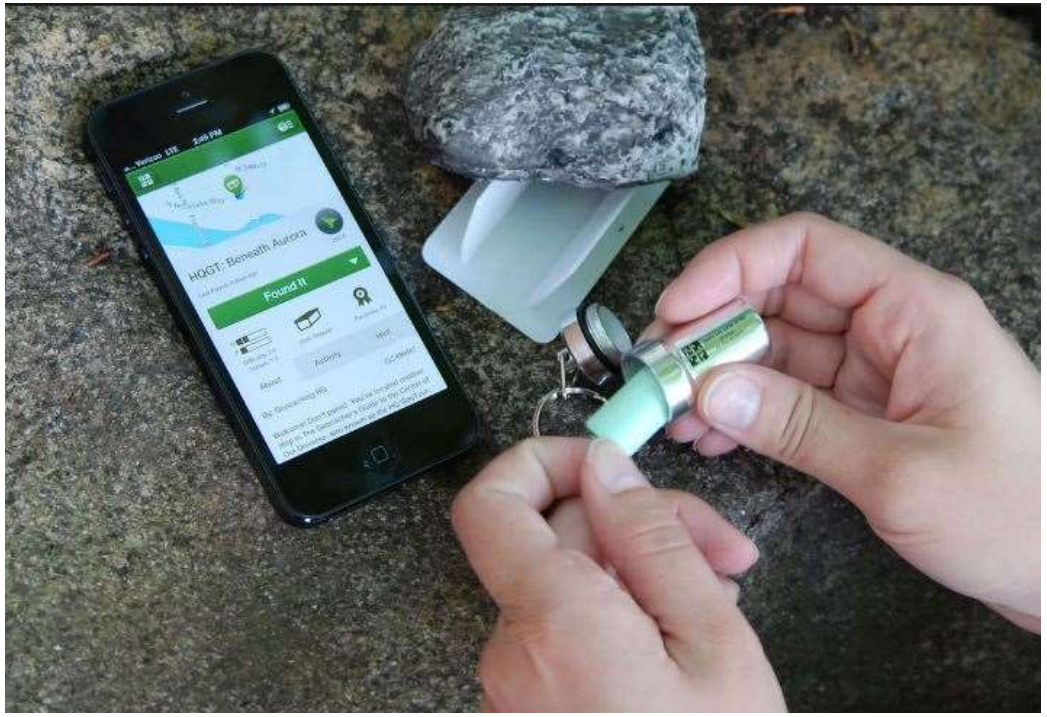
how far you are

7. When you are close to the place you can forget your smart phone – it's time to use your brain and eyes.

It's never too easy to find a cache. Our **tip** is: **look for something that seems out of place**.

Team work always pays back…

8. Once you have found the cache **sign the logbook**, exchange one item (in case you've found any) and **put everything back**.



9. LOG your finding online
and share your stories →
